Washington, DC 20554

Dear The Federal Communications Commission,

I would rather have you leave the cell phone tax alone. I basically got this phone for a main reason to be able to talk to poeple without spending too much money on a phone bill I do just fine with my cell and the minutes I have on it. I really enjoy my phone and would have to amitt that me phone is my favorite thing to own. I just hope you realize how many people you hurt in the long run. Thank you for youe time and please ununderstand and do the right thing to help everyone in the long run.

Sincerely,

Lynn Conklin
